

JEFFREY LONGSWORTH

Software Engineer

.NET Developer

IT Support

PROFILE

I am a successful software engineer with over two years of experience working in a team environment for an aluminum manufacturing company. My work consists of refactoring legacy manufacturing software into web applications and REST APIs, designing and maintaining relational databases, and responding to ITSR tickets from end users.

EXPERIENCE

Software Engineer – 80/20 LLC

06-2021 - PRESENT

Working with a team of developers to design and maintain a collection of web applications needed in production to customize and cut aluminum extrusions and track labor and inventory data.

Order Processor – 80/20 LLC

08/2019 – 06-2021

Review and enter customer purchase orders into 80/20's database. Contact and work with customers and distributors when any order inconsistencies arise.

Shipping Associate – 80/20 LLC

03/2018 – 08-2019

Review aluminum extrusions for quality and ensure product matches customer order. Package and label aluminum on wooden pallets for freight shipping.
